

Accommodation for international students at [Colegio Mayor de Oviedo](#), University of Salamanca

The University of Salamanca is offering 30 places at the [Colegio Mayor de Oviedo](#) for international students coming to study at the University for the 2026–2027 academic year. There are 10 places in single rooms and 20 places in double rooms (10 double rooms).

International students may apply for these rooms between April and June and will be allocated them on a first-come, first-served basis, without having to wait for the standard allocation process followed by the University of Salamanca.

The price for rooms is €511 for a single room and €361 for a double room (both include bed linen and towels). In addition, students will be required to sign up for a meal plan at the residence, which can be either full board at a cost not yet defined between €296 and €360ⁱ per month (breakfast, lunch and dinner every day) or a reduced board plan at a cost of €260 (20 breakfasts, 20 lunches and 20 dinners per month).

The Colegio Mayor de Oviedo is not simply a place to sleep; it is much more than that. It is a facility belonging to the University of Salamanca where 260 people live together, forming a community. The Colegios Mayores are schools of citizenship where residents elect their representatives and participate in working groups. The school expects international students to participate actively in the activities it organises. Furthermore, the Colegio Mayor de Oviedo is a place of study that boasts a spacious library. There are internal rules prohibiting noise during break times and the consumption of alcohol on school premises.

Interested students should write to internacional.cmo@usal.es and send a copy of a document confirming their admission to USAL, along with their personal details. Furthermore, like other residents, they will pay a deposit and sign an accommodation contract with the Colegio Mayor de Oviedo, committing them to stay for the contracted period.

Once these direct-entry places have been filled, the remaining international students interested in applying must complete the application process on [CyRUS](#) in the same way as other University students. The University of Salamanca has prepared a guide in English to using CyRUS for international students to help them with the process. Pre-registration will be available from 8 April [here](#).

ⁱ The final price will be determined when an ongoing public tender for the service were resolved.
